

**Number:** MIP-E-100033-732-16/101

10.04.2023

**Subject:** Regarding Import Containers Gate out as Full

Reference: a) Announcement numbered E-100033-012-8/547 and dated 22.02.2023

b) Announcement numbered E-100033-359-6/482 and dated 20.02.2023

Dear Business Partners,

Besides the measures taken until now, which are also stated in our reference announcements, MIP continues to take additional measures to ensure the continuity of the trade in our region by using the capacity more efficiently.

Within this scope, early gate out incentive of \$15/ per gate out will be credited for the import laden containers which exit within the first 7 days of storage by road transportation.

Within the same scope, "late gate-out surcharge" of \$20/ per gate out will be applied for the containers exiting after the first 7 days.

The above-mentioned, limited period implementation will start with the containers whose storage period starts on 10th April 2023, and will end with the containers whose storage period starts on 30th April 2023.

You are kindly requested to circulate the subject announcement to your members and related parties.
