Subject: Transfer of Stuffing Operations in TOKI yard to Ter6

Dear Business Partners,

As Mersin International Port, within the scope of the measures we have taken to reduce the capacity problems experienced in our port since the earthquake to continue our CFS operations more efficiently and planning of the ongoing Gates Project; as of 21.08.2023, container stuffing operations of marble, mine and derivative cargo types, which are currently carried out in our TOKI (MIP Land Terminal) yard, will start to be carried out in the marked area, which is not in GDA status, of our TER-6 yard, whose open address and visuals are attached to our letter.

You could get detailed information from our Customer Service Department and below link for ARF and appointment processes .
