

Ref : MIP.0101-359-26/1707

Date : 02.08.2013

Subject : Handling of trailers placed on top of each other and their charges

With reference to the handling of trailers which carry other trailers or wheeled vehicles on top of each other, MIP's Tariff and Operations Conditions dated 15.03.2013 stated that the quantity of such trailers handled would be counted as per their number of trailers or wheeled vehicles declared in their official documents and would be charged accordingly.

With effect from 01.08.2013 and until further notice, in order to grant convenience to the customers, MIP will not look at their official documents for the trailer numbers and decided to charge the handling fee just for the trailers that carry trailers or wheeled vehicles regardless of how many of them such trailers have on top.

You are kindly requested to circulate this announcement to your members and related parties.

Sincerely yours,

Mersin International Port Inc.
