

Number: MIP-100033-723-9/2427

10.08.2021

Subject: HES Code Control at Entrances of the Port

To whom it may concern,

With the decision taken by Port Local Authority, HES Codes will be checked at the entrances to port area starting from 16.08.2021 within the framework of the precautions taken due to the Covid-19 Pandemic, against which our country and all the World is struggling for a while.

HES Codes will be checked at the below points:

- Entrance of MIP Administrative building
- Entrance of Operation building
- Entrance of the corridor of the cafeteria
- Gate A pedestrian and automobile entrance
- Entrance of Land Terminal (TOKI)
- Entrance of Terminal 2
- Gate D pedestrian entrance

In order to avoid a possible congestion at check points, it is vital that all the related people who will enter the port area create HES Codes (**valid for min 1 year**) in advance and keep it ready before entrance.

For your very kind information.
